Not less than 14 days before the first meeting of the Board of Review, the assessment notice shall be mailed to the property owner.

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

**The Taxable Value, the Assessed Value, the State Equalized Value, the Property Classification, or the Transfer of Ownership may be appealed by filing a protest with the Local Board of Review. Protests are made to the Board of Review by completing a Board of Review Petition Form. A Petition Form may be obtained directly from the local unit or from the Michigan Department of Treasury's website at [www.michigan.gov/taxes](http://www.michigan.gov/taxes). ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

To claim a PRE, complete the "Principal Residence Exemption Affidavit" (Form 2368) and file it with your township or city of the year of the claim. A valid affidavit filed on or before June 1 allows an owner to receive a PRE on the current year summer and winter tax levy and subsequent tax levies so long as it remains the owner's principal residence. A valid affidavit filed after June 1 and on or before November 1 allows an owner to receive a PRE on the current winter tax levy and subsequent tax levies so long as it remains the owner's principal residence.

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

**The Taxable Value, the Assessed Value, the State Equalized Value, the Property Classification, or the Transfer of Ownership may be appealed by filing a protest with the Local Board of Review. ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

## Guidance regarding Form 1019, Notice of Assessment, Taxable Valuation, and Property Classification

Not less than 14 days before the first meeting of the Board of Review, the assessment notice shall be mailed to the property owner.

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

**The Taxable Value, the Assessed Value, the State Equalized Value, the Property Classification, or the Transfer of Ownership may be appealed by filing a protest with the Local Board of Review. Protests are made to the Board of Review by completing a Board of Review Petition Form. A Petition Form may be obtained directly from the local unit or from the Michigan Department of Treasury's website at [www.michigan.gov/taxes](http://www.michigan.gov/taxes). Commercial Personal, Industrial Personal, or Utility Personal Property may be appealed to the regular March Board of Review or to the Michigan Tax Tribunal by filing a petition by May 31 if a personal property statement was filed with the local unit prior to the commencement of the Board of Review as provided by MCL 211.19, except as otherwise provided by MCL 211.9m, 211.9n and 211.9o. ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

## Guidance regarding Form 1019, Notice of Assessment, Taxable Valuation, and Property Classification

Not less than 14 days before the first meeting of the Board of Review, the assessment notice shall be mailed to the property owner.

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

**The Taxable Value, the Assessed Value, the State Equalized Value, the Property Classification, or the Transfer of Ownership may be appealed by filing a protest with the Local Board of Review. Protests are made to the Board of Review by completing a Board of Review Petition Form. A Petition Form may be obtained directly from the local unit or from the Michigan Department of Treasury's website at [www.michigan.gov/taxes](http://www.michigan.gov/taxes). ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

## Guidance regarding Form 1019, Notice of Assessment, Taxable Valuation, and Property Classification

Not less than 14 days before the first meeting of the Board of Review, the assessment notice shall be mailed to the property owner.

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

**The Taxable Value, the Assessed Value, the State Equalized Value, the Property Classification, or the Transfer of Ownership may be appealed by filing a protest with the Local Board of Review. Protests are made to the Board of Review by completing a Board of Review Petition Form. A Petition Form may be obtained directly from the local unit or from the Michigan Department of Treasury's website at [www.michigan.gov/taxes](http://www.michigan.gov/taxes). Click on the "Property Taxes" box, select "Forms and Instructions," then click on "Board of Review" to obtain a "Petition to the Board of Review," Form 618 (L-4035).**

The denial of an exemption from the local school operating tax for "qualified agricultural properties" may be appealed to the local Board of Review.

The denial of an exemption from the local school operating tax for a "homeowner's principal residence" (Principal Residence Exemption, also referred to as a P.R.E.) may be appealed to the Michigan Tax Tribunal by the filing of a petition within 35 days of issuance of this notice. The petition must be a form approved by the Michigan Tax Tribunal, and forms are available at [www.michigan.gov/taxtrib](http://www.michigan.gov/taxtrib).

Filing a protest with the Board of Review is necessary to protect your right to further appeal valuation and exemption disputes to the Michigan Tax Tribunal and classification appeals to the State Tax Commission. Properties classified Commercial Real, Industrial Real or Developmental Real may be appealed to the regular March Board of Review or to the Michigan Tax Tribunal by filing a petition by May 31. Commercial Personal, Industrial Personal, or Utility Personal Property may be appealed to the regular March Board of Review or to the Michigan Tax Tribunal by filing a petition by May 31 if a personal property statement was filed with the local unit prior to the commencement of the Board of Review as provided by MCL 211.19, except as otherwise provided by MCL 211.9m, 211.9n and 211.9o. The petition must be a form approved by the Michigan Tax Tribunal, which are available at [www.michigan.gov/taxtrib](http://www.michigan.gov/taxtrib).

To claim a PRE, complete the "Principal Residence Exemption Affidavit" (Form 2368) and file it with your township or city of the year of the claim. A valid affidavit filed on or before June 1 allows an owner to receive a PRE on the current year summer and winter tax levy and subsequent tax levies so long as it remains the owner's principal residence. A valid affidavit filed after June 1 and on or before November 1 allows an owner to receive a PRE on the current winter tax levy and subsequent tax levies so long as it remains the owner's principal residence.

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Not less than 14 days before the first meeting of the Board of Review, the assessment notice shall be mailed to the property owner.

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

**The Taxable Value, the Assessed Value, the State Equalized Value, the Property Classification, or the Transfer of Ownership may be appealed by filing a protest with the Local Board of Review. Protests are made to the Board of Review by completing a Board of Review Petition Form. ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Not less than 14 days before the first meeting of the Board of Review, the assessment notice shall be mailed to the property owner.

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

**The Taxable Value, the Assessed Value, the State Equalized Value, the Property Classification, or the Transfer of Ownership may be appealed by filing a protest with the Local Board of Review. ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

## Guidance regarding Form 1019, Notice of Assessment, Taxable Valuation, and Property Classification

Not less than 14 days before the first meeting of the Board of Review, the assessment notice shall be mailed to the property owner.

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

**The Taxable Value, the Assessed Value, the State Equalized Value, the Property Classification, or the Transfer of Ownership may be appealed by filing a protest with the Local Board of Review. Protests are made to the Board of Review by completing a Board of Review Petition Form. A Petition Form may be obtained directly from the local unit or from the Michigan Department of Treasury's website at [www.michigan.gov/taxes](http://www.michigan.gov/taxes). The petition must be a form approved by the Michigan Tax Tribunal, and forms are available at [www.michigan.gov/taxtrib](http://www.michigan.gov/taxtrib).

Commercial Personal, Industrial Personal, or Utility Personal Property may be appealed to the regular March Board of Review or to the Michigan Tax Tribunal by filing a petition by May 31 if a personal property statement was filed with the local unit prior to the commencement of the Board of Review as provided by MCL 211.19, except as otherwise provided by MCL 211.9m, 211.9n and 211.9o. ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

**The Taxable Value, the Assessed Value, the State Equalized Value, the Property Classification, or the Transfer of Ownership may be appealed by filing a protest with the Local Board of Review. Protests are made to the Board of Review by completing a Board of Review Petition Form. A Petition Form may be obtained directly from the local unit or from the Michigan Department of Treasury's website at [www.michigan.gov/taxes](http://www.michigan.gov/taxes). Click on the "Property Taxes" box, select "Forms and Instructions," then click on "Board of Review" to obtain a "Petition to the Board of Review," Form 618 (L-4035).**

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Commercial Personal, Industrial Personal, or Utility Personal Property may be appealed to the regular March Board of Review or to the Michigan Tax Tribunal by filing a petition by May 31 if a personal property statement was filed with the local unit prior to the commencement of the Board of Review as provided by MCL 211.19, except as otherwise provided by MCL 211.9m, 211.9n and 211.9o. ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Commercial Personal, Industrial Personal, or Utility Personal Property may be appealed to the regular March Board of Review or to the Michigan Tax Tribunal by filing a petition by May 31 if a personal property statement was filed with the local unit prior to the commencement of the Board of Review as provided by MCL 211.19, except as otherwise provided by MCL 211.9m, 211.9n and 211.9o. ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Not less than 14 days before the first meeting of the Board of Review, the assessment notice shall be mailed to the property owner.

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

**The Taxable Value, the Assessed Value, the State Equalized Value, the Property Classification, or the Transfer of Ownership may be appealed by filing a protest with the Local Board of Review. Protests are made to the Board of Review by completing a Board of Review Petition Form. A Petition Form may be obtained directly from the local unit or from the Michigan Department of Treasury's website at [www.michigan.gov/taxes](http://www.michigan.gov/taxes). ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). ### PROPERTY ASSESSMENT PROCESS AND NOTICE OF ASSESSORS ANNUAL PROPERTY INSPECTION PROCESS AND RIGHTS AND PROCESS TO OPT OUT OF INSPECTIONS

Michigan Law requires assessments be set to approximately 49-50% of the estimated current market value based on a 2 year sales time frame from April 1st to March 31st of the prior 2 years. Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

Assessors do not visit every property every year due to the time and costs that would be required to do so, and instead, rely on the Mass Appraisal process to set property values. The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. Please visit our web-site for more information on the property inspection process or for a form to Opt Out of property inspections at [www.townshipassessing.com](http://www.townshipassessing.com).

The Mass Appraisal process is much different than an individual appraisal. An individual appraisal involves inspecting one home and comparing that home's value to a handful of similar properties and Mass Appraisal involves the analysis of multiple property sales to estimate mass property values. Mass Appraisal works best when property records are accurate and annual property inspections of approximately 10-20% of properties is performed on a rotational basis to aid in ensuring record accuracy. Also, properties with permits for new construction and recently sold properties are inspected. Property inspections consist of outside work, involving 1-2 Michigan Certified Assessing Technicians and/or Certified Assessing Officers who measure and sketch the footprint of improvements and take photos of the property and/or improvements. Property inspection sketches and pictures are taken back to the assessor's office where the digital record is updated by digitizing the sketch, attaching pictures and reconciling the field notes and sketch with the record. Property inspections are an important part of the Mass Appraisal process, however, owners can opt out of property inspections by submitting a written request to the Assessing Officer. ## Guidance regarding Form 1019, Notice of Assessment, Taxable Valuation, and Property Classification

Not less than 14 days before the first meeting of the Board of Review, the assessment notice shall be mailed to the property owner.

Property taxes are calculated based on the Taxable Value (Line 1). State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

The Taxable Value number entered in the "Change from Prior Year to Current Year" Column, does not indicate a change in your taxes. The change in your tax bill is estimated above Line 1.

State Equalized Value is the Assessed Value multiplied by the Equalization Factor, if any. State Equalized Value must approximate 50% of market value.

IF THERE WAS A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value will be the same as your 2024 State Equalized Value.

IF THERE WAS NOT A TRANSFER OF OWNERSHIP on your property in 2023, your 2024 Taxable Value is calculated by multiplying your 2023 Taxable Value by 1.05 (Inflation Rate Multiplier for the current year). Physical changes in your property may also increase or decrease your Taxable Value. Your 2024 Taxable Value cannot be higher than your 2024 State Equalized Value.

**The Taxable Value, the Assessed Value, the State Equalized Value, the Property Classification, or the Transfer of Ownership may be appealed by filing a protest with the Local Board of Review. Protests are made to the Board of Review by completing a Board of Review Petition Form. A Petition Form may be obtained directly from the local unit or from the Michigan Department of Treasury's website at [www.michigan.gov/taxes](http://www.michigan.gov/taxes). Click on the "Property Taxes" box, select "Forms and Instructions," then click on "Board of Review" to obtain a "Petition to the Board of Review," Form 618 (L-4035).**

The denial of an exemption from the local school operating tax for "qualified agricultural properties" may be appealed to the local Board of Review.

The denial of an exemption from the local school operating tax for a "homeowner's principal residence" (Principal Residence Exemption, also referred to as a P.R.E.) may be appealed to the Michigan Tax Tribunal by the filing of a petition within 35 days of issuance of this notice. The petition must be a form approved by the Michigan Tax Tribunal, and forms are available at [www.michigan.gov/taxtrib](http://www.michigan.gov/taxtrib).

Filing a protest with the Board of Review is necessary to protect your right to further appeal valuation and exemption disputes to the Michigan Tax Tribunal and classification appeals to the State Tax Commission. Properties classified Commercial Real, Industrial Real or Developmental Real may be appealed to the regular March Board of Review or to the Michigan Tax Tribunal by filing a petition by May 31. Commercial Personal, Industrial Personal, or Utility Personal Property may be appealed to the regular March Board of Review or to the Michigan Tax Tribunal by filing a petition by May 31 if a personal property statement was filed with the local unit prior to the commencement of the Board of Review as provided by MCL 211.19, except as otherwise provided by MCL 211.9m, 211.9n and 211.9o. The petition must be a form approved by the Michigan Tax Tribunal, which are available at [www.michigan.gov/taxtrib](http://www.michigan.gov/taxtrib).

To claim a PRE, complete the "Principal Residence Exemption Affidavit" (Form 2368) and file it with your township or city of the year of the claim. A valid affidavit filed on or before June 1 allows an owner to receive a PRE on the current year summer and winter tax levy and subsequent tax levies so long as it remains the owner's principal residence. A valid affidavit filed after June 1 and on or before November 1 allows an owner to receive a PRE on the current winter tax levy and subsequent tax levies so long as it remains the owner's principal residence.
